

RELAY 'STATIC SINGLE PHASE ZERO-CROSSING  
Suitable for controlling single-phase resistive loads.

Diagnostic LED for the reporting of the presence  
of the load and of the control signal.

Internal protection to the overvoltage.

Logic control 12-24V DC 10mA.

Forced ventilation (24V DC 0.15A).

Thermostat 80°C (N.C. 2A 230V).

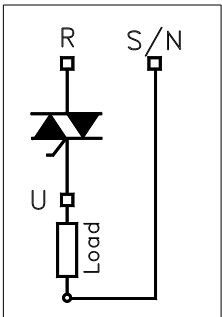

Ffixing for DIN rail.
