

SA-THER M9 Touch screen chronothermostat with floor probe. Suitable for electric floor heating.

DESCRIPTION

Cronoermostato to Touch screen microprocessor with fuzzy technology that provides a more constant temperature and lower energy consumption.

N° 2 temperature sensors, ambient and a floor. Display Backlit LCD Touch screen which indicates the set temperature value.

the weekly setting temperature and 6 hours daily intervention with different temperatures.

it is in addition possible to select the manual mode or time bands mode to suit your needs.

TECHNICAL DATA

Rated voltage 230 VAC 50 Hz-2VA

Temp. Air: 5 ° C - 50 ° C

Temp. Floor:

5 ° C - 60 ° C

Junction of cable max 2.5 mm²

16A single-phase relay cosφ = 1

Hysteresis ± 0.3 ° C

IP20 protection

probe cable length 3 m

EC approval

Dimensions (mm) 86x89x45

Suitable for flush mounting
